

RUSSIA'S CYBERWAR TARGETS WESTERN CRITICAL INFRASTRUCTURE

Cyberattacks on power grids, communications networks, and water treatment plants are happening across the globe. The best defense? Better cyber hygiene. [Kenneth Mendelson](#) provides some tactical advice about protecting critical infrastructures.

KENNETH MENDELSON CISSP, CIPP, CISA, PCIP

Senior Managing Director

Ken Mendelson has spent more than 30 years at the intersection of law, information technology and public policy. As a member of the National Security Practice, Ken manages governance, risk and compliance projects and investigations, and conducts monitorships and third-party audits in connection with mitigation agreements enforced by the Committee on Foreign Investment in the United States (CFIUS). In addition, he assists established and emerging companies with implementing and maintaining cybersecurity and privacy programs by developing cybersecurity policies, procedures and guidelines, and conducting risk-based cybersecurity assessments.
