

# FINTECHS USE REGTECH TO STAY AHEAD OF THE CURVE

As the future of fintech grows, including the assessment of regulatory technology (regtech), it is essential for companies to know how to implement regtech tools into their compliance program. The fast-paced evolving future of fintech calls for businesses to use regtech to make the compliance process more efficient. When the compliance program is thriving, it leads to a better structured business.

In her latest *Forbes* column, [Julie Myers Wood](#) highlights the value of implementing regtech tools as part of your compliance program.

## JULIE MYERS WOOD

Chief Executive Officer

As the Chief Executive Officer of Guidepost Solutions, I focus on helping corporations resolve problems with government agencies, and ensure they are proactively addressing compliance requirements. Prior to joining the private sector, I held leadership positions with the U.S. Departments of Homeland Security, Commerce, Treasury and Justice. This includes serving as the Head of Immigration and Customs Enforcement, Homeland Security's largest investigative component, as well as the Assistant Secretary for Export Enforcement and the Chief of Staff for the Criminal Division at the Department of Justice. Throughout my government and private sector career, I have helped develop, implement and execute compliance programs and crisis management plans and responses across a wide range of industries for numerous companies. I am nationally recognized as a speaker for my expertise on compliance, security, immigration and other law enforcement issues and have testified before Congress.
