

COHNREZNICK LLP AND GUIDEPOST SOLUTIONS LLC NAMED INTEGRITY MONITORS FOR THE JFK INTERNATIONAL AIRPORT REDEVELOPMENT

New York, NY – [CohnReznick LLP](#), one of the leading advisory, assurance, and tax firms in the United States, and [Guidepost Solutions LLC](#), a global leader in investigations, compliance solutions, monitoring, and security and technology consulting, announced that the two firms have been selected to jointly perform integrity monitoring for the construction of Terminals 1, 4, and 6 – a key facet of the John F. Kennedy International Airport Redevelopment Program (the Program). The selection follows a rigorous evaluation by the Port Authority of New York and New Jersey (the Authority).

The award, supporting New York’s \$13 billion plan to transform John F. Kennedy International Airport into a modern 21st century airport, involves performing integrity monitoring services for the Program. This will include creating, implementing, and monitoring policies and procedures that will help ensure that the entities engaged in the Program comply with relevant laws and regulations. The CohnReznick and Guidepost Solutions teams will also be responsible for helping to deter, detect, and report unethical and illegal conduct.

“Upholding the public trust and helping to ensure fiscal integrity are at the core of what we do,” said Frank Banda, Managing Partner, Government and Public Sector, CohnReznick. “We are honored to be selected for this significant monitoring project with Guidepost Solutions and continue our valued relationship with the Authority.”

“The size and scope of this project is also significant,” notes [Thomas A. McShane](#), President, Monitoring and Investigations at Guidepost Solutions. “Through this alliance with CohnReznick, we are excited to bring world-class compliance and monitoring capabilities to this historic, multi-billion-dollar Port Authority project.”

Both CohnReznick and Guidepost Solutions bring considerable experience to the Program. This includes

CohnReznick's seven-year integrity monitoring engagement for the \$4B LaGuardia Airport Central Terminal Redevelopment Program along with Guidepost Solutions' integrity monitoring projects for many noteworthy capital construction projects. These include the World Trade Center Vehicular Security Center Project, the George Washington Bridge Suspender Ropes and Ramps Project, the Bayonne Bridge Navigational Clearance Project, the Goethals Bridge Modernization Program, the Lincoln Tunnel Access Program, and the JFK Terminal 8 Redevelopment Project.

THOMAS MCSHANE

President, Monitoring and Investigations

Thomas A. McShane directs complex investigations of alleged corrupt practices for corporations in several industries and spearheaded the development of the firm's Integrity Monitorship Program under which Guidepost Solutions has been retained on behalf of government authorities to monitor major capital construction projects and private entities. He works with numerous governmental and quasi-governmental authorities including The Port Authority of New York and New Jersey, the Federal Highway Administration, the Office of the Attorney General of the State of New York, and the Department of Investigation of the City of New York, among others. Tom served as counsel

to the New York State Commission on Government Integrity to investigate the roots of corruption in the institutions of government throughout the State.
