

IT TAKES A HOLISTIC SECURITY PLAN TO MITIGATE RISK

A security plan utilizing the minimum technology and operational procedures to meet compliance requirements with regulations should not be mistaken as a security plan designed to protect the people and property within a cannabis facility. [Tim Sutton](#) outlines what your security plan should include to meet state requirements and to truly protect your organization's assets.

TIMOTHY SUTTON CPP, CHPA, PSP

Senior Security Consultant

Timothy Sutton has more than 30 years of security experience. His expertise includes operational security management and program development, loss prevention, physical security and risk assessments, and technical security systems design and implementation. He has worked with clients in diverse sectors including medicinal and adult-use cannabis, healthcare, retail, government, manufacturing, and multi-use properties.
