

# HEALTHCARE FACILITIES STRUGGLE WITH OPEN SPACES AND SECURITY REALITIES

COVID-19 and the increasing rate of violence have placed a strain on the healthcare industry. In an article for *Security Technology Executive*, [Tim Sutton](#) discusses how hospitals and healthcare providers are implementing new technologies such as walk-through metal detectors, turnstiles, and weapon detection systems to control access and improve security while trying to maintain a welcoming environment.

## TIMOTHY SUTTON CPP, PSP, PCI, CHPA

Senior Security Consultant

Timothy Sutton has more than 30 years of security experience. His expertise includes operational security management and program development, loss prevention, physical security and risk assessments, and technical security systems design and implementation. He has worked with clients in diverse sectors including medicinal and adult-use cannabis, healthcare, retail, government, manufacturing, and multi-use properties.
