

# SECURITY CONSULTANT ROUNDTABLE: TAILGATING RISK AWARENESS AND THE IMPACTS OF COVID-19

*Boon Edam*

Building design and security will change as a result of the COVID19 pandemic. Nick Miller joined a group of experts for a roundtable discussion on entrance security and tailgating among other things they see coming to the security environment.

## NICK MILLER LEED AP

Vice President, Western Strategic Accounts

Nick Miller has more than 37 years of security operations and technology experience. His strategic, operationally focused approach promotes the importance of understanding the business needs of a project before applying a technology solution. His background includes security risk and site assessments, master planning, system operational planning, technology design, cost estimating, commissioning, management, and peer review of security programs and emergency operation centers in varied market segments.
