

# SEEKING THE CONNECTIONS BETWEEN MULTIPLE MODES OF RUSSIAN CYBERATTACK ON THE UNITED STATES

*Journal of Cyber Security*

Stephanie Douglas gives her perspective on whether the Russian cyberattacks, ransomware attacks and disinformation campaign are simply random events, or, are they part of Russia's long-running, coordinated campaign aimed at destabilizing the political structure of the United States?

## STEPHANIE DOUGLAS

President, National Security Practice

Stephanie Douglas focuses on sensitive internal and white-collar crime investigations, corporate security programs, intellectual property (IP) protection and investigations, and proactively educating executives about insider threats. She has extensive experience in the management of criminal and national security investigations, domestic and global security operations and policy development and strategy. Ms. Douglas has had a distinguished career in both the private and public sectors. After 23 years, she retired as a Senior Executive from the Federal Bureau of Investigations where she served in a variety of influential roles. She also served as the senior director of corporate security for Pacific Gas & Electric prior to joining Guidepost Solutions.
