

MULTI-VECTOR THREATS: MANAGING SECURITY RISK ACROSS YOUR ENTERPRISE

Cyber Security – A Peer Reviewed Journal – Multi-Vector-Threats

Managing risk at the enterprise level involves close collaboration of the physical and information security functions, responsibilities and missions. This encompasses enhanced communications and information sharing between the information technology, operational technology and physical security groups. The combined joint security operations center (JSOC) can be the most effective way to manage security risks across the enterprise.

MATTHEW WHARTON SR.

President, Strategic Accounts

Matthew Wharton serves as president for strategic accounts. Mr. Wharton is a career security professional with more than 35 years of experience leading security consulting and integration firms. He designs solutions from “The Owner’s Perspective” with improved recommendations that meet regulatory and fiscal requirements and transform internal functions from cost centers to sources for corporate investment that deliver increased integrity to the enterprise and enhance shareholder value.
