

TWO BIG SECURITY RISKS

Ken Mendelson joined The Peggy Smedley Show to talk about the security risks with the IoT (Internet of Things).

They also discuss:

Two main types of security risks and examples of security exploits.

The danger of third-party harm and how it can serve as a launching point for compromise of other devices on the network.

How we can secure working from home and our devices in our home.

KENNETH MENDELSON CISSP, CIPP, CISA, PCIP

Senior Managing Director

Ken Mendelson has spent more than 30 years at the intersection of law, information technology and public policy. As a member of the National Security Practice, Ken manages governance, risk and compliance projects and investigations, and conducts monitorships and third-party audits in connection with mitigation agreements enforced by the Committee on Foreign Investment in the United States (CFIUS). In addition, he assists established and emerging companies with implementing and maintaining cybersecurity and privacy programs by developing cybersecurity policies, procedures and guidelines, and conducting risk-based cybersecurity assessments.
