

DEADLY DISRUPTION: CYBERATTACKS ON HOSPITALS DELAY CARE, CAUSE FISCAL PAIN

The Bond Buyer –

As hospitals across the country cope with the Delta virus variant, there is another type of virus threatening healthcare institutions – a computer virus that heralds an increasing number of cyberattacks and ransomware demands. [Ken Mendelson](#) offered his thoughts.

KENNETH MENDELSON CISSP, CIPP, CISA, PCIP

Senior Managing Director

Ken Mendelson has spent more than 30 years at the intersection of law, information technology and public policy. As a member of the National Security Practice, Ken manages governance, risk and compliance projects and investigations, and conducts monitorships and third-party audits in connection with mitigation agreements enforced by the Committee on Foreign Investment in the United States (CFIUS). In addition, he assists established and emerging companies with implementing and maintaining cybersecurity and privacy programs by developing cybersecurity policies, procedures and guidelines, and conducting risk-based cybersecurity assessments.
