

DEFI IS BECOMING MORE CENTRAL TO FSIS AND FRAUDSTERS

Kenneth Mendelson pointed out that, in fact, “blockchain technology was originally touted as a method to disintermediate traditional financial institutions from the transaction process. However, the institutional stability and accountability regulated financial institutions offer are appealing characteristics that legitimate businesses actually value.”

KENNETH MENDELSON CISSP, CIPP, CISA, PCIP

Senior Managing Director

Ken Mendelson has spent more than 30 years at the intersection of law, information technology and public policy. As a member of the National Security Practice, Ken manages governance, risk and compliance projects and investigations, and conducts monitorships and third-party audits in connection with mitigation agreements enforced by the Committee on Foreign Investment in the United States (CFIUS). In addition, he assists established and emerging companies with implementing and maintaining cybersecurity and privacy programs by developing cybersecurity policies, procedures and guidelines, and conducting risk-based cybersecurity assessments.
