

REPELLING A RANSOMWARE ATTACK: 5 THINGS YOU NEED TO DO TO PROTECT YOURSELF OR YOUR BUSINESS FROM A RANSOMWARE ATTACK

Ransomware attacks have become increasingly more brazen. Huge enterprise businesses, gas pipelines, universities, and even cities have been targeted. [Kenneth Mendelson](#) offers his thoughts on repelling a ransomware attack.

KENNETH MENDELSON CISSP, CIPP, CISA, PCIP

Senior Managing Director

Ken Mendelson has spent more than 30 years at the intersection of law, information technology and public policy. As a member of the National Security Practice, Ken manages governance, risk and compliance projects and investigations, and conducts monitorships and third-party audits in connection with mitigation agreements enforced by the Committee on Foreign Investment in the United States (CFIUS). In addition, he assists established and emerging companies with implementing and maintaining cybersecurity and privacy programs by developing cybersecurity policies, procedures and guidelines, and conducting risk-based cybersecurity assessments.
