

ANTHONY INLONG

BIM COORDINATOR

Office: +1 469 568 0624

Email: ainlong@guidepostsolutions.com

OVERVIEW

Anthony Inlong is a BIM Coordinator with more than 15 years of industry experience. He's worked with architectural firms and companies nationwide producing MEP, structural, security, telecom, audiovisual, and fire alarm designs. Mr. Inlong's experience with various drafting tools including Revit, Bim 360, AutoCAD, and 3ds Max aids in his design of construction documents for clients. Mr. Inlong coordinates and assists the project management team and collaborates with colleagues to implement designs. He manages multiple 3D, 2D models, and cloud-based models. He develops and creates sheet sets specific to design disciplines and helps develop AutoCAD Blocks, Revit families, and design details that aid in the design process. Previously, Mr. Inlong worked at firms in several different industries including AllPro consultant (telecom and DAS design), Blum Engineering (MEP design), Unarco Racks (structural design) and Safirrosetti, now Guidepost Solutions (security, telecom, audiovisual, and fire alarm design.)

SOLUTIONS
