OVERVIEW

Anthony Wilkinson is a Project Manager for Guidepost Solutions Security and Technology Consulting practice, bringing four years of physical security systems experience to the team. Mr. Wilkinson has been in the security industry since 2007 working directly with complex integrated solutions in highly-secure environments. Prior to joining the Guidepost team, Anthony was a Site Supervisor for Allied Barton managing security officers at several Digital Realty properties. Prior to working for Allied Barton, he specialized in the inspection and redeployment of F/18 Aviation weapon systems for the United States Marine Corps between 2003 and 2012.

Since January 2011, Anthony has served as a support analyst and implementation analyst on the DLR portfolio, specializing in issue coordination and resolution of DLR security system related issues. He was later promoted to an enterprise analyst responsible for all DLR Managed Services client deliverables and customer service.

Mr. Wilkinson has planned and performed more than 40 access control and video AMAG/LENEL system upgrades, and has programmed thousands of security devices and provided support for many security projects. His expertise is in diagnosing and troubleshooting security software and hardware related issues.
