

EDWARD BATCHELOR PSP

EXECUTIVE VICE PRESIDENT, SECURITY + TECHNOLOGY CONSULTING DIVISION

Office: +1 312 291 9788

Mobile: +1 630 391 1224

Email: ebatchelor@guidepostsolutions.com

OVERVIEW

Mr. Edward Batchelor brings more than 12 years of experience in physical, technical, and operational security design and consulting. He develops results-oriented solutions tailored to meet the needs of clients and specific project requirements for the protection of assets in multiple vertical markets including higher education, corporate, institutional and government. Mr. Batchelor's expertise includes global project management, security master planning, budget analysis, enterprise technical system standardization and design, operational policies and procedures, and risk and vulnerability assessments.

Mr. Batchelor has a keen ability to apply the fundamentals of physical security to a wide range of complex and unique projects and approaches each project with innovation in security methodologies that support the user experience and organizational culture while providing a safe and secure environment. His security and design experience has been essential in providing system commissioning and technology assessments for several stadium security projects.

Prior to joining Guidepost Solutions, Mr. Batchelor served as a senior security consultant for Jensen Hughes where he led large, complex project teams for global clients. During his tenure, he increased the security practice by leading global business development efforts, mentoring young professionals, and was the subject matter expert for the security division.
