OVERVIEW

Eric A. Scholten has more than 20 years of national and global project management, service, and installation experience in the security industry. Throughout his 11 years with Guidepost Solutions, Mr. Scholten has brought valuable experience to the project team, having served as a project manager for more than 100 Kaiser Permanente facility projects, including new MOBs, medical centers, hospitals, pharmacies and offices.

In addition to having strong organizational and communication skills, Mr. Scholten is an expert in system design and development, construction administration, development and startup of international systems and special projects. His Kaiser projects have encompassed LEED-certified facilities and all project delivery methods. He is well-versed in design software, including BIM and AutoCAD, as well as creating design solutions that are unique to client needs.

EDUCATION

- Associates Degree, Liberal Arts, Ohlone College
