## OVERVIEW

Jahmaal Johnson is an Associate Project Manager for Guidepost Solutions Security and technology consulting practice, bringing eight years of physical security systems experience to the team. Mr. Johnson has been in the security industry since 2002 working directly with complex integrated solutions in highly secure environments. Prior to joining the Guidepost Solutions team, Jahmaal was a site supervisor for allied barton managing security personnel at Digital Realty properties.

Since May 2013, Jahmaal has served as a support analyst and implementation analyst on the DLR portfolio, specializing in issue coordination and resolution of DLR security system related issues. In April 2017, Jahmaal served as a project coordinator specializing in project management, issue coordination and resolution for several of our clients. Jahmaal has also assisted with planning and performing multiple access control and video system upgrades and has programmed thousands of security devices and provided support for many security projects. His expertise is in security project coordination, diagnosing and troubleshooting security software and hardware related issues.
