

JASON HATAWAY

BIM COORDINATOR

Office: +1 469 568 0300

Email: jhataway@guidepostsolutions.com

OVERVIEW

Jason Hataway is a BIM Coordinator responsible for delivering quality design work and customer service. He produces construction documents for each phase of construction for clients, and builds and manages security, telecommunications, audio visual, and fire alarm revit models and CAD drawing files. Mr. Hataway is responsible for maintaining quality assurance/quality control markups/redlines and coordinates with the project management staff and designers for document compliance. He collaborates with internal team members to create and implement company drafting standards and regularly participates in peer review of drawings created by the Guidepost production team.
