## OVERVIEW

Sean S. Inouye is a Certified Fraud Examiner and multidisciplinary senior investigator at Guidepost Solutions. He conducts investigative research, data analysis, and field investigations for a variety of projects and cases in numerous areas, including corporate due diligence and compliance, undercover assignments, forensic accounting investigations, integrity monitorships, and compliance monitorships.

Mr. Inouye has been a member of the Guidepost Solutions integrity monitoring teams for the General Motors Ignition-Switch Monitorship, the construction of affordable housing in New York City, the construction of headquarters space for a multi-national bank and construction related to the New York City Hurricane Sandy Rapid Repairs Program. Some of his responsibilities on these assignments have included conducting interviews of employees and executives; assessing complex information systems, corporate structures, and policies and procedures; drafting sections of major monitorship reports; monitoring social media for emerging issues; administering employee surveys concerning safety culture and procedures; debriefing field investigators and construction inspectors; gathering, tracking and analyzing complex data and records; forensic auditing; and conducting fraud and theft investigations.

Mr. Inouye began his career with Guidepost Solutions in 2010.
