

**SIMON DAVIES**

**PROJECT MANAGER**

Office: +44 768 704 4968

Email: [sdavies@guidepostsolutions.com](mailto:sdavies@guidepostsolutions.com)

## OVERVIEW

Simon Davies has over 25 years of experience in the security operations and technology industry serving in both security integration and now the consulting community. This experience extends to the development of security design proposal packages and management of projects throughout EMEA and APAC to include industries such as data centres, pharmaceuticals, commercial real estate, and commercial banking.

Mr. Davies has managed regional operational sites to ensure compliance is in place with CCSP, EAPs, and AIP. He has designed crisis and emergency security plans and fostered technical security implementation across new and existing facilities. In addition, Mr. Davies has collaborated with clients, vendors and third parties whilst also conducting routine threat, vulnerability, and risk assessments (TVRA). He has coached and developed team members, monitoring, improving staff personal devolvement through appraisal and performance management tools and provided mentorship and support to all colleagues. He prioritises in developing processes to improve business efficiency.

Mr. Davies studied mechanical & electrical engineering in Wales, and then joined HM Forces and served in the Royal Artillery for 9 years as a technical radar operator. He has worked within co-working and the banking industry and finally as head of operations for a security installation company in London.

Mr. Davies has previously carried out charity runs for both cancer research and diabetes. He also supports the Royal British Legion with raising funds for Armed Forces families for both serving and ex-serving personnel to ensure they get the support they need to recover, physically and mentally.

Outside of work, Mr. Davies enjoys playing rugby, camping, walking, and spending family time back on his father's farm at the Brecon Beacons in Wales. He is also Head Bailiff for his local fishing lake.

## SOLUTIONS

Technology Design + Engineering

Telecommunications

Security Systems

## EDUCATION

Electrical Engineer, Certificate, Newton College

## CERTIFICATIONS

- C-Cure 9000, System Manager
- S2 Security System
- Avigilon
- Inner Range
